

THINK GIS®

GIS WITH A PURPOSE

GIS Software

UTILITIES & PUBLIC WORKS

SAVE TIME AND MONEY WITH THINK GIS®

- Eliminate wasted time sorting through stacks of paper maps for repairs and projects
- Properly and accurately identify types and depths of pipes including precise GPS coordinates
- Capture critical personal knowledge from superintendents & employees BEFORE they leave or retire
- Present information to stakeholders clearly and effectively to identify and validate system operations
- Correct utility discrepancies quickly, accurately and permanently - a change made in GIS is there forever

People Friendly GIS Solutions

Better

Maintain data with your own staff
Complete toolset in a single package
Coordinate with your Engineering firm
Backed up by world class support

Faster

Train in hours, not days or weeks
Click to find property ownership info
Quickly identify parts needed for repairs
Calculate road miles in seconds

Smarter

Flow Isolation tool to easily locate shut-offs
Link photos, videos and as built drawings
Share GIS data with other agencies
Automatic updates of base layer data
